

Future Commissioner for Wales

A Journey to

A Globally Responsible Wales

- Ensuring that our supply chains are fair, ethical and sustainable
- 2: Supporting sustainable behaviour and making the connections
- 3: Playing our part to ensure that Wales is welcoming, safe and fair to all
- 4: Ensuring that we understand the importance of using the earth's resources efficiently and contribute to global well-being
- 5: Making the right financial decisions now, to enable future generations to thrive

Future Commissioner for Wales

A Journey to

A Globally Responsible Wales

In the Well-being of Future Generations Act, this goal is defined as

"A nation which, when doing anything to improve the economic, social, environmental and cultural well-being of Wales, takes account of whether doing such a thing may make a positive contribution to global well-being."

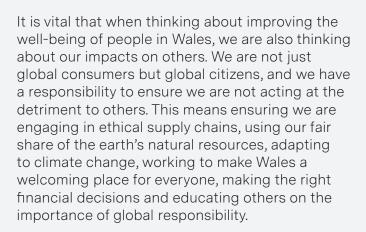

1: Ethical Consumption and Procurement

Defining the goal

It was Martin Luther King Jr. who said: 'before you finish eating breakfast in the morning, you've depended on half the world.'

Our daily actions, the decisions we take and the way we decide to spend our money have far-reaching consequences for other countries and people across the globe. Estimates show that we would need over 1.7 Earths to keep up with our current level of growth and consumption.

Case studies

Throughout the document you will find a number of reports relating to the topic subject. Please read the link if you see this symbol.

1: Ethical Consumption and Procurement

Defining the goal

Where to focus action in contributing to this goal

Procure goods and services in ways that makes a positive contribution to global well-being (See globally responsible Wales journey topic 1: Ethical Consumption and Procurement)

Provide opportunities for people to learn about and understand our global impact (See globally responsible Wales journey topic 2: Global Citizenship and Leadership)

Ensure that our communities are welcoming to all, contributing to social and cultural well-being (See globally responsible Wales journey topic 3: Solidarity and Peace)

Use natural resources wisely, contributing to environmental well-being globally and in Wales (See globally responsible Wales journey topic 4: Our Fair Share of Natural Resources)

Making financial decisions that improve economic well-being globally and in Wales (See globally responsible Wales journey topic 5: Fair and Ethical Investment and Divestment)

1: Ethical Consumption and Procurement

Other statutory requirements in relation to this goal

The Modern Slavery Act 2015 was designed to combat modern slavery in the UK, and consolidates previous offences in relation to trafficking and slavery. There is government guidance for organisations on how to ensure that slavery and human trafficking is not taking place in their business or supply chains here.

Some of the suggested <u>steps</u> and actions in this document complement the policies set out in legislation - specific steps and actions that adhere to these are highlighted in orange and with an 'St' symbol.

1: Ethical Consumption and Procurement

Enablers

Achieving this goal is **more likely to happen** when...

- There is strong support from civil society for actions that have a positive global impact.
- It is accepted that diversity unites communities rather than divides them.
- The importance of global actions is appreciated and understood: they are not seen as a simple, nice-to-do 'add-on' to business as usual.
- Politicians and other senior leaders have the vision to support global projects, understand our positive contribution and welcome international visitors.
- There is an understanding of the United Nations Sustainable Development Goals (SDGs) and their relevance to Wales.

1: Ethical Consumption and Procurement

Disablers

Achieving this goal is less likely to happen when...

- There is a fundamental lack of understanding about what being globally responsible means.
- Politicians and other senior leaders take a 'look after Wales first' approach alone.
- There aren't measures or indicators to map what impactful approaches to being globally responsible looks like.
- Organisations are tied into existing arrangements such as procurement contracts, which limits opportunities.
- Relevant expertise in organisations is limited and siloed.

A Journey to

A Globally Responsible Wales

1: Ethical Consumption and Procurement

Ensuring that our supply chains are fair, ethical and sustainable

1: Ethical Consumption and Procurement

Defining the issue

The decisions we make day to day, when we buy, contract or procure goods and services have impacts, both locally and globally. A third of the world's population live on less than a dollar a day and the current trading system is failing them. Fair Trade can help change this. The £6 billion public purse in Wales is a powerful tool to deliver social, environmental, cultural and economic sustainability. Behind everything we buy is a

person, and by paying that person a fair price for goods, we can support them to send their children to school, put food on the table and plan for the future. We can also ensure that we use only our fair share of the earth's natural resources and protect our marine and forest habitats, including deforestation strategies that mitigates climate change.

Journey to a prosperous Wales

Topic 1: Fair and local procurement

Journey to a resilient Wales
Topic 5: Using natural resources

1: Ethical Consumption and Procurement

Making **Simple** Changes

Review your procurement policy and ensure that it includes fair and ethical practices (to include fair trade, marine stewardship council and forestry stewardship council).

E.g. <u>Welsh Government</u> tell us how they're doing it

Check whether your contracts meet the requirements of the Modern Slavery Act / Code of conduct.

Source locally where possible, so that you can bring added value to the local economy, improve skills and reduce carbon emissions.

Source reused/recycled products where possible, such as paper in your printer or even your furniture and floor tiles.

E.g. the procurement work and office move from <u>Public</u> Health Wales.

Use only Recycled Paper, set a date to be paper free, and when printing move towards using only soy-based inks.

Sign up to electronicswatch.
com - they focus on monitoring
electronic supply chains, from
components to final assembly
and manufacturing, supporting
ethical procurement of
equipment.'

Promote sustainable organisational certification systems including <u>BCorp</u> and Green Dragon.

Support your staff to deepen their understanding of the complex sustainable certification schemes such as Fairtrade, marine stewardship council, forestry stewardship council, Rainforest Alliance, Eco-cert and Organic, so that staff are aware of their differences and appropriate contract and policy decisions can be made.

Analyse and publish your public procurement spend, paying close attention to where money goes in terms of geography, sector and in terms of business type. This will help minimise negative impact.

1: Ethical Consumption and Procurement

Being More **Adventurous**

Review and develop your food policy and procurement contracts to increase product range to include fair, ethical and sustainable fruit, juice, snacks and other food where possible, and include palm-oil free / sustainable palm oil in your food contracts to ensure that natural habitats are being maintained.

your workwear policy and procurement contracts to increase product range to include fair, ethical and sustainable textiles/workwear/uniforms.

E.g. Welshpool High School, Ysgol Hafan y Mor and Transport for London

Review and develop policy to ensure your supply chain is sustainable for all sourced materials, including aggregates, paint, vehicle and oil-based products and include conflict-free requirements in all your contracts and tenders

Ensure all of your contracts meet the requirements of the Modern Slavery Act/Code of Practice.

electronics through independent verification schemes such as <u>electronicswatch.com</u> and <u>Greenpeace Guide to</u> <u>Electronics</u> so that the minerals and natural resources are sustainable and ethical.

Apply for sustainable organisational certifications.

E.g <u>BCorp</u> and <u>Green Dragon</u> in tenders and contract bids.

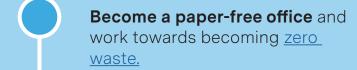

Deliver updates/training
so existing and new staff are
aware of changes to sustainable
certification schemes,
empowering staff to make
appropriate contract and policy
decisions – this could include
asking your local Fair Trade
group or Fair Trade Wales to
come and talk to you.

1: Ethical Consumption and Procurement

Being More **Adventurous**

Support sole traders, smalls businesses, – social enterprises, community interest companies (CIC), and BAME businesses to successfully deliver services.

E.g Welsh Government is currently sourcing some of its hospitality items from <u>Fair Dos</u> and Caerphilly CBC sources its milk from a local dairy.

1: Ethical Consumption and Procurement

Owning your **Ambition**

Collaborative or national actions

Wales has a fully functional <u>circular economy</u>.

Wales is a <u>carbon neutral</u> nation.

Wales maintains its status as a Fair Trade Nation.

Organisational actions

Take a Lifecycle Management Approach to procurement and consumption so that 100% of your tea, coffee, hot chocolate, fruit, juice, soft drinks, snacks, clothing, IT, are fair trade/ ethically and sustainably sourced, and demonstrated through robust systems of evaluation, which incorporate the refuse, reduce, reuse and recycle principle.

You ensure that every person in your supply chain is treated fairly and sustainably and no harm is incurred to humans or the environment.
